

footpaths

cycle lanes

weight restriction areas

downtown locations, pedestrian precincts

factory premises

large-scale retail sites and car parks

- narrow clearance width
- very tight turning radius
- light total weight
- quality product - designed and manufactured in Germany

Model	Smart 453	Smart EQ
Drive	Petrol/ rear-wheel drive	Electric/ rear-wheel drive
Power	45-92 kW	61 kW
Weight	880 kg	1010 kg
Dimensions	L: 2695 mm W: 1663 mm	L: 2695 mm W: 1663 mm
Consumption	4.1 l - 5.0 l Super	15.2-16.5 kWh/100 km
Turning radius	6.95 m	6.95 m

Rear spreader

Polaro 70 E

12 V spreader with electronic metering during the drive

operating width: continuously variable from 0.8 m - 6.0 m

electronic spread rate dosage

one-sided spreading possible

exact and even spreading pattern

operated by LAS 4 control panel from the driver's seat

all metal parts are made of stainless steel

weight: 29 kg

Ecoplow (snow plough)

Premium stainless steel V4A!

Blade width: 1.60 m -2.00 m

Blade: extremely strong plastic (neither break nor splinter)

Blade height: approx. 60 cm, therefore also suitable for major snow heights

Blade suspension: flexible construction, therefore compensates unevenness

Scraper blade: very robust, no wear and tear

Hydraulic system: joystick-controlled from inside the vehicle

Dual usage: easy mounting and dismantling for summer and winter operations

License: DEKRA individual approval according to § 21 StVZO (German Road Traffic Licensing Regulations) included in delivery!

Assembly: Mercedes-Benz service workshop

Optional: smart float position
